

Report for: Sam Sample
Completed on: June 15, 2015 at 3:28 pm

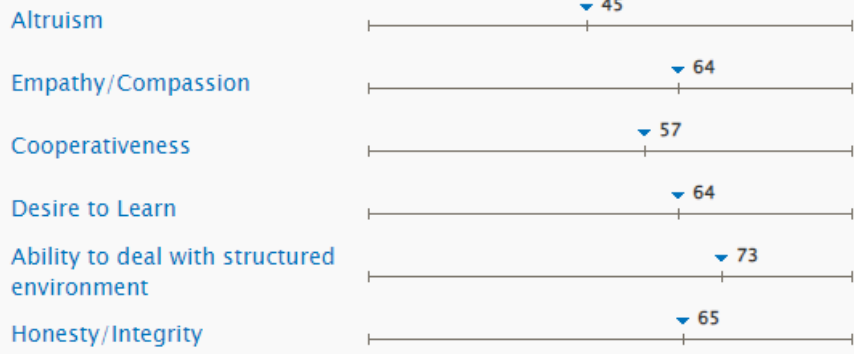

SUMMARY	INTRO	GRAPHS	DETAILED RESULTS	STRENGTHS & LIMITATIONS	ADVICE
<p>The American Association of Colleges of Nursing states that the U.S. is anticipating a shortage of nurses as the health care needs of the Baby Boomer generation increase (2012). This may not come as a surprise. Nursing is one of the most difficult fields to pursue, and existing nurses are feeling the burden. While the projected growth of nursing positions is expected to be "faster than average," according to ONET, the need for nurses who can handle the emotional, psychological, social and physical demands of nursing is apparent.</p>					
<p>Overall Score ▼ 55</p>  <p>Although Sam does not possess all the skills and traits necessary to work as a nurse, he can potentially develop and improve them over time in order to pursue a job in this line of work. He would likely be able to adapt to this type of position, but it would take some time and effort on his part.</p>

<p>The American Association of Colleges of Nursing states that the U.S. is anticipating a shortage of nurses as the healthcare needs of the Baby Boomer generation increase (2012). This may not come as a surprise. Nursing is one of the most difficult fields to pursue, and existing nurses are feeling the burden. While the projected growth of nursing positions is expected to be "faster than average" according to ONET, the need for nurses who can handle the emotional, psychological, social and physical demands of nursing is apparent.</p>					
<p>Nurses are required to juggle multiple roles. Aside from caring for their patients, they need to anticipate and deal with the needs of worried and frustrated family members. They need to deal with routine administrative tasks, routine medical rounds, and at the same, be on alert for unexpected changes in a patient's health. Nurses also have to cope with conflict, emergencies, death and grieving. The demands of this field are numerous, but many men and women who take on this caregiving role feel that the personal fulfillment of being able to help others far outweighs any downside.</p>				<p>Famous nurses in history include Mary Ezra Mahoney (first African-American woman to become an RN), Clara Barton (founder of the Red Cross) and the "Queen of Nurses," Florence Nightingale.</p>	
<p>If it is Sam's goal to pursue a career in nursing, he can use this test as a guide for areas that he can develop. Even if he didn't score as well, education, practice, and experience (and effort on his part) will provide opportunities to develop any areas where he is lacking.</p>

<p>Overall Score (score 55)</p> <p>Although Sam does not possess all the skills and traits necessary to work as a nurse, he can potentially develop and improve them over time in order to pursue a job in this line of work. He would likely be able to adapt to this type of position, but it would take some time and effort on his part.</p> <div style="border: 1px solid black; padding: 5px; width: fit-content; margin-left: auto;">Overall aptitude for nursing.</div>					
<p>Nursing Value System (score 63)</p> <p>Sam possesses some of the values that are important for a career in nursing. People who are more likely to want to make nursing a long-term career do so because it offers them a sense of fulfillment that goes beyond financial gain – and Sam has the potential to be one of these people. By continuing to develop a strong nursing value system, he is more likely to find this type of career meaningful and fulfilling. Review his results on the specific values for more details.</p> <div style="border: 1px solid black; padding: 5px; width: fit-content; margin-left: auto;">Encompasses a group of skills/traits that are essential to a fulfilling nursing career.</div>					
<p>Altruism (score 45)</p> <p>Sam is not the most helpful person. He will sometimes offer assistance to others, but it may not be his first instinct or desire. This doesn't mean that he is not concerned about other people's welfare – he simply doesn't want to have to inconvenience himself too much in order to help someone.</p> <div style="border: 1px solid black; padding: 5px; width: fit-content; margin-left: auto;">A true desire to help others.</div>					

The following is a summarized version of Sam's results, categorized as Strengths, Potential Strengths, and Limitations.

Strengths

- He is skilled at picking up on social cues
- He is diligent when he completes tasks
- He is able to stay organized
- He is meticulous
- His reading comprehension is excellent

Potential Strengths

- He shows some degree of empathy and compassion
- He shows some eagerness to learn
- He can eventually adapt to a structured work environment
- He strives, at least to some degree, to practice honesty and integrity
- His communication skills are satisfactory
- He is sometimes able to be an attentive and active listener
- He shows some degree of warmth toward others
- He has some skill at building a rapport with others
- He is willing to be discrete and respect confidences on some occasions or in some situations
- He is somewhat dependable
- He is sometimes able to keep his work environment tidy
- He is moderately efficient

Words of wisdom from one of the most well-known nurses: "I attribute my success to this – I never gave or took any excuse."
(Florence Nightingale)
